

Accounts Receivable

Solana's Accounts Receivable software gives you the power to see your customers' sales and payment history at a glance. With a couple clicks, you will quickly know who is delinquent and what payments are expected to come into your agency.

Accounts Receivable software reduces the process of manually keying invoices. Invoice entry becomes more efficient as you can apply discount rates, discounts, due dates and sales tax automatically as you create the invoice. You can also memorize and recall frequently occurring invoices to save even more time. **Quickly create sales invoices** as your customers purchase from your inventory list or send out personalized post-sale invoices and statements in a batch as needed. Easily add new customers or update customer information without leaving your invoice entry.

Once the payments are received, you will gain even more efficiencies when you let our Accounts Receivable software **automatically distribute** and **apply receipts** to a specific invoice or multiple invoices and calculate finance charges.

The Accounts Receivable software integrates with our General Ledger module for access to accounts, sub-accounts, and cost centers. In addition, if you use Solana's Employee and Client

Memorize and recall frequently recurring invoices to save data entry time.

Management modules the lists from these modules are accessible in the Accounts Receivable software. This **cross-module access** allows you to quickly distribute expenses to employees or clients. Finally, our Accounts Receivable software integrates with our Billing module to generate invoices for those individuals that have patient liability.

With Solana's Accounts Receivable software collecting payments from your customers becomes easier and more efficient.

Please Note: Solana's Billing module is the best way to bill and track client services for most funding sources.

Key Benefits

- ✓ Save administrative time when creating and sending out invoices and statements
- ✓ As the amount of time spent processing invoices goes down, so do related costs
- ✓ Always know when cash receipts are due
